Environmental

Environmental services include flood risk assessments, Bio- Diversity action plans, reed-bed developments, waste management, ground investigations, and offer extensive drainage and flooding advice. A&F Consulting Engineers have been employed as engineers for many Internal Drainage Boards, and are acting as Chief Executives from 2008 for the newly formed Lower Aire & Don Drainage Consortium.

Expert Witness

We have acted for a number of local authorities as experts in dispute situations. Our experience includes boundary disputes, flood and coastal related issues.

In some instances this has been in the form of a single joint independent witness.

Photo Library

Our extensive photo library of over 50,000 construction related images has been of use to a number of local authorities. We can supply images for advertising purposes at competitive rates.

Please note all images are copyright ©
