Scientific and Historical Research are important tools used in project management. Research used in applications includes Waste Management, Flood Risk Assessments, Coastal Prediction Modelling, Brownfield Developments (Contaminated Land) and Expert Witness.

Our Scientific Research includes:-

- Statistical Analysis.
- Applying historic data with modern computer software.
- Graphical Representation of Data.
- GIS collation and presentation.
- Photography (including aerial).
- Flora and Fauna Studies.
- Noise (dB) Testing.
- Chemical Analysis (including asbestos).
- Ground Investigations.
- Hydrological.
- Environmental.
- Scaled Modelling Systems.

Coastal Erosion Data

Our Historic Research includes:-

- Local Authority Archive Searches.
- British Library Searches.
- Historic Ordnance Survey Mapping.
- Library Services.

Other Methods of Research A&F use includes:-

- Recycling Methods.
- Computer Applications.
- Internet Surfing.
- Geological Interpretation.
